

Amendments to the Specification and Abstract:

In the Specification:

Please amend the fifth full paragraph on page 4 of the Specification to read as follows:

Referring now to ~~Fig. 1~~the figure, where compressed air lines are represented by solid lines and electrical lines by broken lines, there is shown a compressed air system 2 with a compressed air supply part 4 and a compressed air consumer part 6. Compressed air supply part 4 comprises a compressor 7, a compressor control device 8 and an air-dryer part 10.
